Life-long Learning

Real-world Experience

Quality Education

Students and teachers

Meaningful learning experiences for students engage the whole child as they motivate and inspire a love of learning and the life-long pursuit of knowledge.

Ongoing professional development (PD) for educators is a vital link between current research and classroom practice.

Effective PD enhances program delivery and learning experiences for students.

Literacy, academics and life!

Literacy-focused programming together with family events, outdoor education activities, culture camps and city-wide choir performances are a few examples of how student learning connects to the 'real-world'.

Innovative teaching and richly diverse experiences bring learning to life, and encourage students to take an active role in their own education.

Kindergarten through grade 8

Newly renovated and located in the heart of downtown Yellowknife, MHS provides students with a bright and welcoming learning environment.

"Multiple Intelligences" is a focus at MHS. Here students are encouraged to build upon their strengths, feel success and celebrate their unique abilities and talents.

Modified, enrichment and exploratory student support, known as differentiated instruction, is used to match program delivery to individual student needs and strengths.

Mildred Hall School is a great choice ...

- A wide range of programming options are designed to support individual student needs
- Family literacy nights provide a relaxed atmosphere where relatives, friends and family can have fun together with literacy-rich projects and activities
- Students have the chance to explore their world and gain understanding from variety of perspectives
- Behaviour support focuses on awareness and building strategies for success: making good choices, developing self-discipline and establishing positive relationships
- Recognized as one of Canada's top 40 schools by Today's Parent magazine!

Aboriginal Language and Culture-based (ALC) Program

Aboriginal education provides all students with an opportunity to experience and learn about the First Peoples of the NWT and their rich heritage.

- MHS's program includes two components:
- Homeroom ALC for all students
 - ALC as an alternative to Core French for Aboriginal students

In ALC programs, students explore and learn about traditional knowledge, language and life ways.
